

Program Offerings

Be knowledgeable through education and training

Understanding dementia and knowing how to support people with cognitive impairment in primary care practice is complex and requires a team approach.

Be proficient with help from our Warmline

That's why Dementia Care Aware is collaborating with experts across California to equip you with the tools and resources you need to provide better dementia care.

Boost your confidence by attending interactive case conferences (ECHOs)

Start with a strong knowledge base, practice what you learn, get support from your peers, learn from your experience, and create an environment where early detection and better care for people living with dementia is a top priority.

Build dementia supportive health systems with help from practice support consultation

See the next page for more information about program offerings in these categories.

Use these resources to connect with dementia experts and improve dementia care in your practice

EDUCATION AND TRAINING

Dementia Care Aware - Cognitive Health Assessment Training

A CE accredited 90-minute self-paced eLearning course that includes training modules that can be completed over more than one sitting.

Go to DementiaCareAware.org to register for the course. Live training will be available by request in February 2023.

Dementia Care Aware - Monthly Webinars

CE accredited (with live attendance) 60-minute presentations on a variety of topics to assist with dementia care from screening to care planning and implementing dementia care processes.

Go to DementiaCareAware.org to register for an up-coming webinar or watch recordings of previous webinars.

Dementia Care Aware – Podcasts

CE accredited 30-minute podcasts intended to supplement the webinars and CHA training with more casual conversational information delivery.

Go to DementiaCareAware.org for more information.

WARMLINE

Dementia Care Aware - Warmline

A consultation service created for clinicians and primary care teams in California to answer questions on any part of dementia care including cognitive and functional screening, diagnostic workup, care planning, and related operational considerations- like documentation, billing, and creating a team model of dementia care.

Go to DementiaCareAware.org to submit a question and receive a response with 2 business days.

INTERACTIVE CASE CONFERENCES/ECHOs

UC Irvine ECHOs

Virtual case conferences that allow primary care teams to learn about the cognitive health assessment and management of dementia in interactive and case-based live meetings with Dementia Care Aware experts.

Go to DementiaCareAware.org for more information.

UCLA Health ECHO Series

Connects dementia care experts with health care teams from community-based settings in a free continuing education series of interactive, case-based video conferencing sessions.

Please contact Rachel Goldberger at rbgoldberg@alz.org to sign-up.

UCSF Interactive Case Conference

TBD

TBD

PRACTICE SUPPORT CONSULTATION

UCLA Health

Consultation for Implementing a Dementia Care Program

Based in health care systems and partners with community-based organizations (CBOs) to provide comprehensive, coordinated, person-centered care. Support to offset costs are available through Dementia Care Aware.

Contact ADC Project Manager, Jagrup Kaur jagrupkaur@mednet.ucla.edu for more information.

Alzheimer's Association

Consultation and Quality Improvement Services

Transform your dementia care practice from assessment and diagnosis to care planning and follow-up by uncovering barriers, providing tools and resources, identifying key areas for process and quality improvement, and developing customized solutions to help improve your dementia care management.

Contact Alzheimer's Association Health Systems team at HSDCA@alz.org for more information.
