

# The Dementia Care Aware Warmline

**A provider support and consultation service that connects primary care teams with Dementia Care Aware experts!**

The warmline is a service that connects clinicians and primary care teams with experts to answer questions about dementia care that come up as they implement the cognitive health assessment and care plan. The warmline also serves as an opportunity to get connected to health systems implementation resources such as ECHOs, and practice support consultation services to facilitate systems change.

Consultants are available to answer questions submitted through our support page, Monday through Friday from 8am to 5pm and will respond within two business days.

Submit questions like these on our website [support page](#)

My patient screened positive, what are best practices for next steps and care planning?

How do I bill for the cognitive health assessment?

What guidelines are available to help inform clinical decision making?

What resources and tools are available to help my organization become more dementia capable?

More information about program offerings and opportunities can be found at [DementiaCareAware.org](https://DementiaCareAware.org)
