

# DEMENTIA Care Aware

Early detection. Better care.

## UCLA Health Key Offerings

**Dementia Mini-Course:** A course that emphasizes an evidence-based, practical, and functional approach to the comprehensive care of older adults with dementia through online video modules. Free CME credits are available. Sign up on the DCA website at <https://www.dementiacareaware.org/sign-up/>

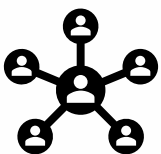

**National Dementia Care Collaborative:** A national community of health systems and others such as developers of complementary models, health policymakers, and government staff interested in spreading the ADC program and improving the care of persons with dementia and their caregivers. For more information, contact [ADCProgramNLC@edc.org](mailto:ADCProgramNLC@edc.org)

**ADC ECHO<sup>®</sup>:** The Alzheimer's Association ECHO Program connects dementia care experts with healthcare teams from community-based settings in a free continuing education series of interactive, case-based video conferencing sessions. The fall 2023 registration is now open. For more information, please contact Rachel Goldberger at [rbgoldberger@alz.org](mailto:rbgoldberger@alz.org)

**ADC Dissemination:** The ADC program provides comprehensive, coordinated dementia care for persons living with dementia and their loved ones. Advanced Practice Providers work with the patient's referring physician to create and implement a personalized care plan. The first 20 sites will receive a fee waiver through the DCA initiative. Complete the interest form at <https://www.adcprogram.org/interest-form> to schedule a call with the ADC team.

**Referrals to other Dementia Care Models:** To learn about other dementia care models (the Care Ecosystem, BRI CC, MIND-at-Home, HABC, or IMC), please contact Jagrup Kaur at [jagrupkaur@mednet.ucla.edu](mailto:jagrupkaur@mednet.ucla.edu)
