

The Dementia Care Aware Warmline

1-800-933-1789

A provider support and consultation service that connects primary care teams with Dementia Care Aware experts!

The warmline connects clinicians and primary care teams with dementia experts that can answer questions and provide education and decision-making support around dementia screening, assessment, diagnosis, management, care planning and brain health management.

The warmline also serves as an opportunity to get connected to health systems implementation resources and practice support consultation services to facilitate systems change.

Consultants are available to answer questions Monday through Friday from 9am to 5pm. All inquiries will be responded to within 24 hours or the next business day.

Call with questions like these or submit them on our website [support page](#).

What do I prioritize if my patient tests positive for cognitive impairment?

What medications should be avoided if my patient has cognitive complaints?

What cognitive assessment should I use for a Spanish speaking patient experiencing homelessness?
